

EDWARD KOJO BOATENG-NTOW

DATA & PERFORMANCE ANALYST

Accra, Ghana | kojoboateng514@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data & Performance Analyst with 3+ years of experience transforming operational, commercial, and large-scale datasets into actionable business insights. Experienced in performance analytics, business intelligence, data quality, dashboard development, KPI reporting, and operational decision support. At Guinness Ghana (Diageo), delivered analytics solutions spanning national sales performance, B2B e-commerce, route-to-market effectiveness, sales incentives, inventory intelligence, and asset reconciliation. This included a multi-source tracking solution that contributed to a 95%+ returnable glass recovery rate. Currently working in AI data evaluation at Turing, applying structured validation, data quality, RLHF, and SXS evaluation workflows to support high-quality engineering and product outputs.

PROFESSIONAL EXPERIENCE

Turing

Business Analyst (AI Data Evaluation)

Palo Alto, CA (Remote)

Jan 2026 - Present

- Sourced, validated, and normalized large datasets (10k+ records), identifying and correcting structural inconsistencies, technical inaccuracies, and data anomalies to optimize RLHF and SXS evaluation models.
- Conducted deep-dive data quality audits and structured validation workflows to ensure clean, high-fidelity data outputs for engineering and product teams.
- Utilized specialized browser-based tools, extensions, and basic command-line instructions to clean raw inputs, manage evaluation frameworks, and automate workflow checks.
- Governed strict data quality, hygiene, and annotation standards across multiple concurrent data workstreams to minimize error rates in production datasets.
- Authored clear technical documentation of data findings and communicated insights asynchronously to cross-functional, remote engineering stakeholders.

Guinness Ghana Breweries PLC (Diageo)

Data Analyst, Performance & Insights

Ghana

Nov 2024 - Oct 2025

- Product Ownership (Diageo One B2B App):** Owned the end-to-end data tracking and reporting framework for the Diageo One B2B e-commerce application. Built Excel dashboards tracking user acquisition, active usage, order frequency, delivery rate, average order value, and product category volume.
- Predictive Asset Reconciliation Pipeline:** Engineered a multi-source data triangulation model in Excel (Power Query), combining SAP, SMS RTI, and Edge DMS data to track returnable glass inventory.
- Operational & Financial Impact:** Delivered a real-time tracking dashboard that helped drive a 95%+ recovery rate of returnable assets in trade and restore production capacity.
- Sales Force Incentives & SIP Modeling:** Managed performance reporting used to audit field productivity metrics and calculate monthly Sales Incentive Plan payouts.
- Route-to-Market Efficiency:** Designed the VSE Effectiveness Report to analyze distributor coverage, execution, loadout targets, and delivery drop size.
- National Sales & Inventory Intelligence:** Designed daily national sales performance reporting and standardized inventory tracking to support forecasting and production planning.

Guinness Ghana Breweries PLC (Diageo)

Divisional Performance Analyst

Ghana

Nov 2023 - Nov 2024

- Program Ownership (Brightmile Telematics):** Served as Country Program Manager for the Brightmile telematics initiative, managing operations, technical support, and onboarding for 120+ commercial team members.
- Executive & Global Reporting:** Designed performance dashboards delivering weekly and monthly safety insights to the Managing Director, country commercial leadership, and Diageo Global Safety Team.
- Business Risk Mitigation:** Achieved a 0% accident/incident rate across the commercial fleet during the program's tenure.
- Regional Analytics Leadership:** Partnered with divisional and area sales leadership to provide data support, business intelligence, and reporting.
- Commercial Gap Analysis:** Performed weekly and monthly performance audits to identify execution gaps and support data-backed recovery strategies.
- Campaign & Activity Tracking:** Built activity tracking reports to evaluate the ROI of regional commercial activations.

EDUCATION

Heriot-Watt University

MSc Computer Science, Unconditional Offer Received

Admitted through a professional-entry pathway based on relevant industry experience.

United Kingdom

September 2026 Intake

University of Ghana

Computer Science, Undergraduate Studies

Completed substantial undergraduate coursework in Computer Science.

Accra, Ghana

2018 - 2023
